## Company Profile

XINSANXING Lighting Company was established in 2007, located in Huizhou Zhongkai National High-tech Zone. We are now specializing in natural material lighting.

At the beginning of establishment, we focused on shades development and production, and expanded production line in 2015 to produce indoor home lighting. Later in 2019, in response to the national "green water and green mountains, is the silver mountain of gold" concept of environmental protection, we have an insight into product direction, to focus on the production of natural materials, like bamboo, rattan, wood, grass, plant hemp, etc.

After 3 years of exploration, our factory developed and produced a variety of categories of natural material lighting products, which exported to North America, Europe, Africa and some Asian countries. Finally, won the unanimous praise of overseas customers. Over 10 years steady development help us improve our certain core competitiveness.

## Company Culture

★ **Company Mission:** In the pursuit of both material and spiritual happiness of all employees, with China's leading and tailor-made weaving art lighting, let the beauty of natural environmental protection illuminate thousands of homes!

★ **Company Vision:** To be the leader in China's woven art lighting market segment

★ **Company Tenet:** Quality wins customers, integrity wins market

### Company Core Values

- ◆ [Character]: Integrity and honesty, self-discipline and due diligence
- ◆ [Responsibility]: All through my hands, things will be done; timely detection and problem solving
- ◆ [Pragmatic]: Pragmatic, rigorous and efficient; only find ways, not excuses, as long as the proposal, do not complain
- ◆ [Passion]: Love work, challenge difficulties, self-improvement
- ◆ [Beyond]: Learning, sharing, innovation; beyond the self, no best, only better

## Brief description of qualifications

- ★ 1. Material source advantage: The company set up a branch factory in Bobai County, Guangxi, the hometown of weaving in China, with fast and convenient access to materials and large production capacity, the design concept of products, the hands of the old local weaving artists can be fully realized.
- ★ 2. Development and design advantage: the company has a special design team of four people, has now obtained 30 product design patents, while the company won the "National High-tech Enterprise" in 2021.
- ★ 3. Company qualification advantage: the company has obtained ISO9001, BSCI certification, CE, RoHS product certification for European market demand, ETL product certification for North American market demand.
