

## Specifications

Model: 40VC002

| General Specification |             | Electrical parameter |            | Wiring Diagram |
|-----------------------|-------------|----------------------|------------|----------------|
| Response Time         | 2.5-12ms    | Voltage              | 12V        |                |
| voltage Resistance    | 200Vmin(AC) | Resistance           | 9.5Ω±10%   |                |
| Insulation Class      | Class E     | Current              | 1.26A      |                |
| Weight                | 0.3kg       | Inductance           | 5.0mH±10%  |                |
|                       |             | Thrust               | 1.5kg(12V) |                |
